<b>Office Action Summary</b>	Application No. 10/618,668	Applicant(s) SUNG, LUNG-TE	
	Examiner Alvin A. Hunter	Art Unit 3711	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

Claim 1 is objected to because of the following informalities:

- a) in line 5, the limitation "the striking" should read –the striking face--;
- b) In line 6, the phrase "where at" should be deleted;
- c) In line 8, the word "pressure" should read –press bar--.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 2, the limitation "the head of a golf club" lacks antecedent basis.

In line 4, the limitation "the back of the striking face of the club head" lacks antecedent basis.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Doong (USPN 6354956).

Doong discloses a golf club head having hollow structure combined with multiple sheets 1, 3, 4 and 5 having a compression coil 2 being fixed to the back of the striking face 1 of the club head, wherein the compression coil being provided in a direction following the striking face. One end of the compression coil is fixed to the back of the striking face and the other end of the compression coil is fixed to a press bar 3 wherein the ends of the press bar are fitted to the back of the striking face 1 (See Figure 3, and Column 2, lines 7 through 23). Doong does not disclose having the press bar welded to the back of the striking face. Though it does not disclose press bar welded to the back of the striking face, Doong teaches that welding may be used as a means for attaching elements (See Column 2, lines 7 through 23). One having ordinary skill in the art would have found it obvious to weld the press bar to the back of the striking in order to reduce the resilience of the striking face upon being hit with a golf ball.
